Owner's Manuals - Cover-Pools

The manual system uses the same track as the Save-T 3 automatic cover to guide the fabric along your pool. The Step-Saver cover moves through low-profile tracks to cover and uncover the pool, then stores on its own reel when not in use. Your pool can be covered in less than 60 seconds.

Manual / Safety Pool Covers by Pool Cover Resource

Your Step-Saver® manual pool cover system is an economical alternative to an automatic pool cover, made especially for your pool. Each Step-Saver system includes standard components, but we also offer a variety of optional components for additional customization.

Step-Saver® Manual Cover - Cover-Pools

“cover” until the pool is covered. For Undertrack Systems, release the key or control pad a few inches before the end of the pool, let the cover coast to a stop, then turn to or press “close” until the front of the cover taps the end of the pool. This “soft stop” method will improve the life of the cover and its components rather

Owner Manuals | Automatic Pool Covers, Inc.

A manual pool cover is a pool cover that has solid cover fabric. When the cover is hand cranked over the pool it stops water loss from evaporation, saves on chemicals, saves on energy costs, and of course the most important thing it does is function as an ASTM approved safety cover.

Manual or Auto Pool Covers; Which is Better?
